Handcraft ModernTM

Handcraft ModernTM

The Handcraft Modern collection embodies the spirit of 20th Century handmade modernism, combining authentic craftsmanship with bold geometric design. Simple, elemental shapes—the Arch and the Circle—come alive in organic terracotta, aged matte white, and rich metallic bronze, creating tiles that celebrate both human touch and modern simplicity.

Each tile begins its journey in the volcanic clay quarries of Sicily, where ash from ancient eruptions created clay deposits of superior quality. Artisans shape each tile through deliberate handwork—honoring traditional techniques passed down through generations.

Variation, Usage & Technical Information - Terracotta Etna

Variation

Handcraft Modern Terracotta Etna is made completely by hand. Variation in thickness, size, color and surface texture are desired characteristics and a result of the traditional techniques employed to craft the tiles.

- Chips and imperfections on the tile face
- Variation in thickness and flatness
- Variation in color/shade between tile pieces
- Lime pops
- Efflorescence on some tiles
- Color tone variation in different production lots

All Handcraft Modern Terracotta Etna tiles should be laid out and approved by owner or owner's representative for approval prior to installation. Driftwood Design Lab cannot honor any claims made for the characteristics listed above if claimed as defects after installation.

Application Notes		Floor Application Definitions	
* For installation in showers that will be used daily regular re-sealing may be necessary.		<u>Light Residential</u> - Flooring areas subject to soft-soled footwear or normal footwear traffic without abrasive soil/dirt, such as bathrooms and bedrooms without exterior access and minimal pivot points. <u>Residential</u> - Flooring areas subject to soft-soled or normal footwear traffic that may contain amounts of abrasive soil/dirt, such as living rooms, dining rooms or other rooms with exterior access.	
** Only in areas that do not experience regular freeze thaw cycles.			
Important Sealing Notes			
All Handcraft Modern Terracotta Etna tiles must be sealed before and after grouting with a high-quality penetrating sealer. If sealing before grouting is not performed, grout haze or staining may result. After first sealing and grouting, once grout has dried another round of sealing for the grout is required with a high-quality penetrating sealer. In wet areas, grout may need to be re-sealed occasionally to maintain protection. Installation constitutes acceptance. We advise retaining control samples to aid in color matching if additional material is required (match not guaranteed).			

Handcraft Modern Installation Guidelines include important methods that if not followed may result in an unsatisfactory installation. For installation instructions, please visit: [DriftwoodDesignLab.com](https://www.driftwooddesignlab.com)
